

## Mississippi Delta Community College

### Floral Design Class

**Well-known caterer and floral designer, Jo Harris, returns to GHEC this fall with two popular classes in floral design. Known for her unusual wedding ideas and themes, Jo has a weekly television segment on WABG-TV 6, where she cooks one of her favorite entrees and also adds a finishing touch with a floral centerpiece or creative floral idea for parties. She is offering two classes for the delta: a basic floral design class where students will have a hands-on session with flowers, containers and unusual greenery, all selected by Jo. Her second class will be the advanced floral class on a different night that invites those with prior floral background to join her for creative designs. Many of her students have come from flower shops from all over the delta. Call Margaret Karr at 662-378-5338 for dates, times and cost. Seating will be limited for both of these classes.**
