## PRECISION MANUFACTURING AND MACHINING TECHNICAL CERTIFICATE

Precision Manufacturing and Machining is a program of study that instructs its students in making computation relating to working dimensions, tooling, feeds, and speeds of machinery. Instruction in the laboratory is provided in the use of lathes, shapers, milling machine, grinders; the use of precision measuring instruments such as layout tools, micrometers, and gauges; methods of machining and heat treating and testing of various metals; and the reading of blueprint parts. Advanced training is available in technical mathematics, mechanical drawing, industrial psychology, safety, and shop management.

## **Admission Requirements**

Students must submit a composite score of 14 or higher on the ACT. Students who do not have an ACT score, must score at the  $9^{th}$  grade level or higher on the TABE, Form 9/10. Exceptions may be made with instructor permission for students who do not meet entrance requirements.
